## Creating a Great Breakout Session Presentation

You wrote a great session proposal and have spent a great deal of time working on your presentation. Make sure to steer away from the mundane and boring so attendees leave with a great memory of your presentation that will be shared with others.

### Present to all Learners

There are three main learning styles and your presentation should incorporate tools that engage all attendees. Kinesthetic learners learn by doing. Visual learners learn with great visual aids and auditory learners learn through questions, dialogue, and discussion.

### Slide Decks

There are other avenues to create a slide deck presentation other than the typical PowerPoint. Check out these options listed below:

- [Canva](#): Canva has an easy-to-use interface, which allows you to make nice slides via a host of free images and design templates. You can upload your own photos and add animation and music.
- [Prezi](#): This is full of great slide templates and Prezi gives you the ability to create presentations with a wow factor. You can also interact on video with your presentations in real time.
- [Emaze](#): This enables you to create elaborate mixed-media slides. You also have the ability to import PowerPoint presentations into Emaze and upgrade them with new content.
- [Powtoon](#): This visual communication platform gives you the ability to create professional and fully customized videos as well as animated presentations.
